

FLEXI /// EST. PERFORMANCE

FLEXI

TRAIN SMARTER.
MOVE BETTER.
LIVE LONGER.

A premium personal training and athletic coaching studio engineered for people who refuse to plateau. Strength, conditioning, mobility, and recovery — built around your life.

THE 2026 PROGRAMME GUIDE

THIS IS NOT A GYM. IT'S A METHOD.

Flexi began with a stubborn idea: that adults deserve the same precision of coaching that professional athletes take for granted. No mirrors lined with ego, no machines collecting dust, no programmes recycled from a magazine. Just intelligent training, calibrated to the body in front of us.

Every member is assessed before a single rep is prescribed. Movement quality, joint history, sleep, stress, sport, schedule — all of it shapes the plan. Then we build, week by week, a body that performs the life you actually want to live: stronger in the garden, steadier on the trail, calmer in the chaos.

Train smarter. Programmes that progress on evidence, not vibes. Move better. Mobility woven into every session, not bolted on. Live longer. Because the goal was never the mirror — it was the next thirty active years.

— *The Flexi Coaching Team*

FOUR PILLARS.

01 ASSESS

Movement screen, strength baseline, conversation. Nothing is prescribed before it is understood.

02 PROGRAMME

A written, periodised plan rebuilt every six weeks. Strength, conditioning, mobility, recovery.

03 COACH

Hands-on technique correction. Cues you can feel. Numbers you can trust. Progress you can see.

04 REVIEW

Quarterly retests, lifestyle audits, and honest conversations about what the data is saying.

WHAT WE COACH.

Four core programmes, each delivered one-to-one or in small groups of no more than four. Choose one, combine two, or let us design a hybrid around your sport and your schedule.

01

PERSONAL TRAINING

60-minute private sessions built on assessment data. Strength, hypertrophy, fat loss, return-to-training — your goal, our blueprint.

02

ATHLETIC COACHING

Sport-specific power, speed, and conditioning for runners, cyclists, climbers, racquet sports, and tactical athletes.

03

SMALL-GROUP FITNESS

Capped at four. Every rep coached. The energy of a class with the precision of a private session.

04

NUTRITION & RECOVERY

Habit-based nutrition coaching, sleep protocols, mobility prescriptions, and quarterly bloodwork reviews.

WHY FLEXI

BUILT DIFFERENTLY.

● MEASURED

Every six weeks, your numbers are tested again — strength, work capacity, mobility. We coach the data, not the mood.

● PRIVATE

A members-only studio capped at sixty people. No queues for the rack. No waiting for the cable. Just space to train.

● EXPERT

Coaches with degrees in strength science and a decade on the floor. Continuing education is mandatory, not optional.

● WHOLE

Sleep, stress, nutrition, mobility, and mindset are coached together — because the body does not separate them.

PROGRESS YOU CAN MEASURE.

MEDIAN MEMBER TENURE

“

Flexi didn't just change my body – it changed my mindset. I came in wanting to lose a few kilos. I'm leaving with the strongest, calmest, most capable version of myself I've ever met.

AMARA O. Flexi member since 2022

HOW IT BEGINS.

Joining Flexi is deliberate. We meet first, learn each other, then build. Here is exactly what your first month with us looks like.

DAY 01

DISCOVERY CALL

A 20-minute conversation. We learn your goals, your history, your schedule. You learn how we coach. No commitment.

DAY 03

MOVEMENT ASSESSMENT

A 90-minute studio visit: movement screen, strength baseline, posture and mobility audit, lifestyle conversation.

DAY 07

PROGRAMME DELIVERY

Your written six-week plan is built and walked through with you. Training begins this week.

DAY 30

FIRST REVIEW

We retest the key markers, refine the plan, and set the next six-week target. Then we go again.

Your strongest self is already on the schedule.

06 / BEGIN

READY WHEN YOU ARE.
